About Stop Child

Stop Children's Cancer is the **result** of one brave child's dream to find a cure for children with cancer.

Bonnie Freeman
(1970 - 1983)

In 1981, after being diagnosed with leukemia at the age of ten, Bonnie Freeman told her parents she wanted to help other children like her who had cancer, so that others wouldn't have to go through what she and her family had gone through.

Following this bright vision, Bonnie, her family and two family friends founded Stop Children's Cancer. For two and a half years, Bonnie joyfully participated in writing and stuffing letters, helping with bake sales and doing whatever it took to let others know about Stop Children's Cancer.

Though Bonnie lost her battle with cancer, her family and friends continued Bonnie's vision and the work that she had started.

The selfless dream of this one child has resulted in almost \$6 million in donations to help fund pediatric cancer research at the University of Florida's College of Medicine.

Since 1981, Stop Children's Cancer has continued to raise funds for basic research, scholars, equipment and technology, including clinical trials for the Divisions of Pediatric Hematology/Oncology and Pediatric Neuro-Oncology at the University of Florida College of Medicine. The funding of this research through clinical trials will bring life-saving drugs to children and young adults with cancer and provide hope for their future.

Stop Children's
Cancer's mission
is the prevention,
control and cure of
cancer in children.

Children's Cancer

What We Do

Fund Research

Since 1981, Stop Children's Cancer has been dedicated to funding pediatric cancer research. Funding goes toward basic research, scholars, equipment and technology, including clinical trials for the Divisions of Pediatric Hematology/Oncology and Pediatric Neuro-Oncology at the University of Florida College of Medicine. In addition, Bonnie's Legacy Endowment Fund provides a permanent source of funding to support cancer research for the future.

Bring Hope

For the countless children and families around the world that are affected by cancer, Stop Children's Cancer provides hope for the future. Every donation brings us one step closer to the prevention, control and cure of pediatric cancer.

Provide Support

Stop Children's Cancer supports the local community by funding research at the University of Florida College of Medicine. With these community donations, we are able to provide seed money for national and worldwide clinical trials that bring us closer to finding a cure.

Bringing us one step closer to the prevention, control and cure of pediatric cancer.

Your Donations at Work

Your donation provides **hope to children and their families.**

Your legacy through planned giving will ensure that children with cancer can **look forward to a life with a future.**

Your gift will fund the advancement of medicine **around the world** for the prevention, control and cure of cancer in children.

Ways to Give

1. Make a donation

To make a tax-deductible donation online, please visit stopchildrenscancer.org/donate
-or-

Donate by mail by sending a check to:

Stop Children's Cancer, Inc, 2622 NW 43rd Street, Suite B-3, Gainesville, FL 32606

2. Sponsor an event

Stop Children's Cancer has several fundraising events throughout the year. The funds raised at these events help to support clinical trials and cancer research. For more information about sponsorship opportunities, please visit stopchildrenscancer.org/sponsor.

3. Donate an auction item

Many of Stop Children's Cancer's events include a silent auction. Your donation of an auction item will help make a difference. For more information about donating an auction item, please visit stopchildrenscancer.org/auction.

4. Volunteer to help with an event

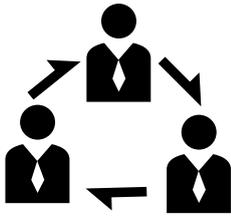

Stop Children's Cancer has many opportunities for you to get involved. The donation of your time and talents is a valuable part of our organization and we invite you to become a part of what we do. For more information about volunteering, please visit stopchildrenscancer.org/volunteer.

Your Donation

● **Supports those directly involved in the clinical trials process**

Donations help support the key players in bringing a clinical trial to life from the beginning paperwork to the final data collection process.

● **Builds research teams**

● **Increases the number of clinical trial submissions**

Donations increase the research staff efficiency, allowing them to complete more research in a shorter time period.

● **Number of newly opened clinical trials**

2010

2011

2012

● **Funds cutting edge cancer treatments through clinical trials**

During a clinical trial, researchers test the latest advancements in medication or treatment. These trials do not involve placebos, so each patient enrolled receives treatment. Patients involved in trials make an important contribution in advancing new treatments for cancer.

● **Providing progressive treatments for further advancement**

● **Builds a lasting legacy**

Your donation to Bonnie's Legacy Endowment Fund will provide a constant stream of resources for the future of Stop Children's Cancer. The principal of this fund will remain intact while the interest continues to support future research.

● **Secures future giving**

● **Reduces lead time between clinical trial submissions**

Over the past few years, clinical trial lead-time has decreased from 10 months to 3 months allowing more children to receive treatment in the hopes of finding a cure.

Reduce lead time from

10 MONTHS
to
3 MONTHS
